

STATE OF SOUTH CAROLINA
AFFIDAVIT FOR RECORD FRESHWATER GAME FISH

Affidavit must be filled out in entirely and returned to the South Carolina Department of Natural Resources within 45 days of catch. (Please Print)

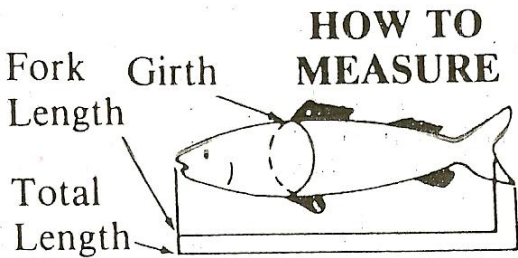

Name (Species) of fish

Scientific Name (to be completed by certifying biologist)

Date Caught

Weight (please record based of the graduation of the scales used)

Standard
(1) lbs. oz.
(2) lbs. tenths/lb
Metric
(3) kg gm

Total Length (inches)

Girth (inches)

Name of the water body where entry was caught

Applicant's Name

Address
Street / Box #

City State Zip Code

Optional : Please provide a brief narrative of how the fish was caught (i.e. time of day/night, type of bait or lure, fishing method and details of the location etc)

CERTIFICATION

Scale Information

Scales must be certified as accurate by the USDA or other officially accredited organization

Location of certifying scales

Type of scale (digital, balance, dial, table, other)

Registered Scale No.

Date Scale Last Checked

Witness 1 (signature) Witness 2 (signature)

Street and/or Box Number Street and/or Box Number

City State Zip Code City State Zip Code

I hereby swear in registering this fish for state record that the above information is true, that in taking this fish I complied with all the rules (on reverse side) and that the witnesses actually witnessed the weighing of this fish on certified scales

Biologist verifying entry \_\_\_\_\_

Rules and Registering a South Carolina State Freshwater Fish Record

- 1. Fish entry must be caught on standard sport fishing tackle; rod, reel and line or pole and line. Entry must be hooked and played by one person only.
- 2. Records are maintained on “all tackle” records only. The tackle must be standard and available commercially. Line size and angling device used are not considerations for “all tackle” records.
- 3. The catch must be made in accordance with any laws or regulations governing the species and/or water body from which it was caught.
- 4. No fish caught from any hatchery nor aquaculture facility is eligible.
- 5. No estimated weights acceptable for registration. Fish entry must be weighed on scales of known accuracy in the presence of two witnesses at least 18 years old. (Most grocery stores have certified scales). You may be asked to prove the accuracy of the scales used.
- 6. To replace an existing record fish weighing less than 25 lbs, the replacement, must weigh a minimum of 2.0 oz (1/10<sup>th</sup> lb; 57gm) **more** than the existing record, otherwise the entry will be considered a tie and the applicant listed as a co-holder of that record. Entries to replace a fish greater than 25 lbs must weigh a minimum of 8.0 oz. (5/10<sup>th</sup> lb; 266gm) **more** than the existing record, otherwise the entry will be considered a tie and the applicant listed as a co-holder of that record.
- 7. A South Carolina Department of Natural Resources fisheries biologist must identify all entries as to species. If possible, the biologist should also witness the weighing of the entry. In the event a biologist is not readily available, the entry should **first** be weighed, measured and witnessed then frozen or otherwise preserved intact until a biologist is notified. A small tissue sample may be required to genetically verify fish of some closely related species, or fish caught from areas where there is a potential for hybridization. The verifying biologist’s decision is final and the South Carolina Department of Natural Resources reserves the right to refuse the registration of any questionable entry.

Records are kept for the following species: Striped Bass, White Bass, Hybrid Bass and White perch, Largemouth Bass, Spotted Bass, Smallmouth Bass, Redeye Bass, Bluegill Bream, Redear Sunfish (Shellcracker), Redbreast, Warmouth, Flier, Pumpkinseed, White Crappie and Black Crappie, Brook Trout, Brown Trout, and Rainbow Trout, Sauger, Yellow Perch and Walleye, Chain Pickerel (Jackfish), Blue Catfish, Bullhead Catfish, Channel Catfish, Flathead Catfish and White Catfish, Bowfin (Mudfish) and American Shad.

World Record Information

Anglers with an entry for a possible world record consideration should contact the International Gamefish Association for information on the rules, procedures and applications for a world record submission.
